

SPECFLUE

REGISTER PLATES

Specflue Register Plates are manufactured from 1.5mm thick grade galvanised steel, and are available in two sizes;

- **813mm x 380mm with one access door**
- **1066mm x 380 mm with two access doors**

Suitable for 125mm and 150mm diameter spigots, simply remove the cover ring for 150mm installations.

Product codes;

- **813mm x 380mm = 47RPSD**
- **1066mm x 380mm = 47RPDD**

Kept in stock.

Trim to size on site.

Specflue Register Plates conform to HETAS requirements, chapter 7a.

Inspection doors are secured via captive nuts, so they remain easily removable.

Each register plate is supplied with sufficient angles for support.
