

SPECFLUE

Vitreous Enamelled Swept Bends

New to the range of vitreous enamel products are the swept bends. These bends offer less resistance to the flow of flue gases.

Available in 90, 135 and 110 degrees and across the vitreous enamel size and colour range.

Bends with access doors are available, matt black doors on matt black bends, gloss black doors on gloss black bends, etc.

If you would like to see a sample, please contact your local Area Sales Manager who can arrange a visit.
