

New Termatech Stoves from SPECFLUE

Specflue has been established for almost 20 years and is the largest flue and chimney distributor in the UK with an unrivalled reputation.

For several years we have been looking at the possibility of distribution to the retail sector our own range of Stove products, and with this in mind I am proud to introduce a brand new product to the UK.

Termatech stoves have been manufactured and sold in Denmark for many years and they have used some of the the best stove engineers in the world.

You can peruse the full catalogue to get the feel of the range, but I would like to clarify our supply route and be totally transparent in our supply agreements. Therefore please read the following terms of trade:

1. We will ONLY supply to bona fide retail showrooms.
2. Our product WILL NOT be devalued online and the supply will be removed immediately from anyone found to do so.
3. All products will be delivered FREE anywhere within UK mainland on a 4-7 day lead time.
4. Within 6 months we will be delivering on a FREE next day delivery.
5. We will carry FULL spare parts within stock and they will be delivered FREE next day.
6. We will actively promote this product to consumers and any direct sales made will be passed through local retailers EVERYTIME.
7. We will always show loyalty to those loyal to Specflue
8. Discount structures are fixed as below

We feel this is a fair, honest and open policy and allows all retailers to compete fairly with each other.
